Dear ,

Request for Information – ATISN 10606

I wrote to you on 28 July regarding your request for information. You asked –

The number of accidents directly attributable to speed (in the last 12 months) on the M4 westbound carriageway where speed cameras have been deployed in the vicinity of the information signs before you arrive at the tolls booths just after the Severn Bridge.

The number of accidents directly attributable to speed (in the last 12 months) on open stretches of the A40 (east and westbound) where speed cameras have been deployed near sweeping bends or at the bottom of hills.(between Carmarthen and Haverfordwest)

For the criteria 'attributable to speed' we have only identified the collisions with the contributory factors: 'Exceeding speed limit' or 'Travelling too fast for conditions'

In the last 12 months, there have been no collisions within the limits of the M4 camera site which meet the criteria, however there was one collision meeting this criteria on the A40 at Bancyfelin.

If you are dissatisfied with the Welsh Government's handling of your request, you can ask for an internal review within 40 working days of the date of this response. Requests for an internal review should be addressed to the Welsh Government's Freedom of Information Officer at:
