Hi everyone

I'm more than happy for my involvement in the process to be made public.

I also wonder whether a clear statement saying that it was a unanimous, cross party decision would put this issue to rest.

Hi all

Not sure if it's needed now or the time has passed but have drafted the below if it's of any help. I've put the names in alphabetical order by surname apart from me at the end but happy to change that or any other bit as you think best.

I'm not sure of protocol here in terms of what – if anything – you want to do with it so happy to go with whatever is considered best.

JOINT STATEMENT – APPOINTMENT PANEL FOR FUTURE GENERATIONS COMMISSIONER

There has been some discussion in the media regarding the appointment of Sophie Howe as Wales' first Future Generations Commissioner.

As members of the panel tasked with making recommendations to the Minister and First Minister on appointable candidates, we want to make it clear that the recommendation was made by a cross-party group with support from an independent member and chaired by a Welsh Government official. The process followed Nolan principles and the core principles of the Code of Practice set out by the Public Appointments Commissioner of merit, openness and fairness. The recommendation made was unanimous.

Hi all

Not sure if it's needed now or the time has passed but have drafted the below if it's of any help. I've put the names in alphabetical order by surname apart from me at the end but happy to change that or any other bit as you think best.

I'm not sure of protocol here in terms of what – if anything – you want to do with it so happy to go with whatever is considered best.

JOINT STATEMENT – APPOINTMENT PANEL FOR FUTURE GENERATIONS COMMISSIONER

There has been some discussion in the media regarding the appointment of Sophie Howe as Wales' first Future Generations Commissioner.

As members of the panel tasked with making recommendations to the Minister and First Minister on appointable candidates, we want to make it clear that the recommendation was made by a cross-party group with support from an independent member and chaired by a Welsh Government official. The process followed Nolan principles and the core principles of the Code of Practice set out by the Public Appointments Commissioner of merit, openness and fairness. The recommendation made was unanimous.

Hi everyone

I'm more than happy for my involvement in the process to be made public.

I also wonder whether a clear statement saying that it was a unanimous, cross party decision would put this issue to rest.

As promised, please find details of the recruitment exercise for the FG Commissioner.

I've checked with PAU and can confirm that we are able to release the names of the appointment panel; as I thought, we should keep Amelia John's name out and just list her as "a Senior Civil Servant". Her role was to ensure that the process was carried out correctly.

Please let me know if you need anything further.

Seb – you will have seen the updated advise from Rachael from PAU. I will email the panel members and advise them that we may be releasing their names.

Hi Wendy,

I know you have spoken briefly to Leighton. If someone comes back to request the name of the senior civil servant on the panel then that is not something we can withhold under FOI as the exemption would not apply. Something for you to consider - as you are releasing the names of the other panel members it may seem odd you have not also released Amelia's. Also, I assume as a matter of courtesy you are letting the panel members know that you are releasing their names in response to a query.

This is the line for FMQ's (and media as needed) on the process itself.

The Cabinet Office guidance on public appointments was followed throughout the process, with the cross-party panel interviewing candidates and then recommending a preferred candidate for FM to agree.

The panel was as follows:

To update you;

I've just been in with the Minister and he is fully up to date on the coverage on this, which is as expected I would say at this point.

Some rebuttal tweets will be appearing shortly on the political side which he's just talked me through – the queries we've had are around lack of Welsh language skills and how the role will interact with the Peter Davies role which we are in the process of putting a line out on. Also that NFU have concerns that the five new board members appointed to Natural Resources Wales have a "distinct lack of agricultural and forestry experience amongst the new line up".

Sophie has agreed to interviews with Wales Today this evening and possibly Good Evening Wales. If asked re Labour insider we will use our line on there being cross party support. We have not been asked this as of yet and I'd recommend against actively briefing on this based on the coverage as it stands.

Looks like you have covered the angles and that Minister is comfortable with this, I'm sure though that the 'cross party support' line will need to be used.

Carys

This is Sophie's conflicts of interest form.

These are the documents which support the two positions she considers are not conflicts.

I tend to agree with her, but would be grateful for your thoughts.

I also think that depending on how she is contracted in the interim period prior to her appointment, she may need to stand down from her Sport Wales Board position earlier than she expected.
