

Dear All,

Following the assessment of the above business cases at our Business Case Scrutiny Group meeting, there are some areas to be clarified before the cases can be submitted before our Capital Investment Panel on 29 July. I would be very grateful if these could be looked at and further evidence provided by lunchtime, Wednesday 21 July before the papers are issued to Panel members.

As discussed with _____, I understand there is some flexibility around the submission to Capital Panel, particularly as the issue around statutory proposals will need to be discussed further with our School Organisation colleague, _____, when she returns from leave.

If there is anything else you need at this stage, please let me know.

Kind regards,
