------	--	---	--------------------------

I understand that the estate is situated adjacent to a flood plain in Ruthin, access to the estate involved building a link road across the flood plain. The land was owned by the former Welsh Development Agency (now absorbed by the Welsh Government), who were informed by the Environment Agency Wales (EAW) that in order for the road to be built certain conditions must be met. These conditions included the installation of grided culverts, maintenance of the culverts and maintenance of the flood plain.

1. Can you confirm what measures were actually carried out by the WDA in order to comply with these conditions? If so please could I have copies of the records/documents that show this?
 2. Copies of all maintenance records/inspections for the maintenance undertaken on the flood plain in front of the culverts, and copies of any guidance or other note issued to staff concerning the frequency of inspections of the same area.
 3. Copies of any evidence/submissions from the Welsh Government or the EAW, or their agents in respect to that planning permission for the road.
