**To:** Hobson, Philip R (ESNR-Tourism, Heritage & Sport-Cadw)  
**Subject:** High Storrs School Sheffield and Abstract of the Asbestos Report

Dear Mr Hobson,

Here is the detail and attached is an image.

Analysis of OLD  
School Buildings Asbe

<<Doc 89>>

High Storrs is a Coeducational secondary school and sixth form located on the south-western outskirts of Sheffield in South Yorkshire, England.

Address: High Storrs Road, Sheffield S11 7LH

Founded 1933

Incidentally the Executive Board at their meeting today passed a motion to remove asbestos from the school. There is no asbestos that can be inhaled in the building. I have attached my analysis and abstract from the Consultants Report as additional information.

Kind regards

Roland George
