Subject: School Transport

- I hope you are well. We have picked up the Minister's discussion at Plenary on Wednesday concerning home to school transport. We understand the Minister has asked for work to be undertaken for her to report back to Members.

The south west Wales authorities have asked that I write to explore the possibility of meeting with officials at an early stage to discuss the subject of the debate. I wonder if you could advise whether this would be possible or refer me to the appropriate contact if it does not fall with you.

Regards

Steve
