INTEGRATED EVIDENCE BASE

Risks, opportunities and priorities for SMNR at a local level to facilitate the implementation of the National Natural Resources Policy

ACTION

Joined up, collective action
Innovative new solutions

Sustainable Management of Natural Resources (SMNR)

The objective of Part 1 is to **manage our natural resources** in a way and at a rate that can **maintain and enhance the resilience of our ecosystems** whilst **meeting the needs** of present generations without compromising the ability of future generations to meet their needs and contribute across the well-being goals

Area statements are about providing an integrated evidence base and identifying opportunities for action across a wide range of stakeholders.

1. What do you need from an Area Statement to enable your organisation to take action?
2. What do you need to enable you to join up and take forward collective actions identified in the Area Statements ?
