Subject: Keynote speech, Smart Energy Wales, 22nd September

Dear Minister,

I would like to invite you to give the keynote political speech at Smart Energy Wales, which this year takes place at the Swalec Stadium on 22nd September.

This will be the second annual event; the sector has been characterised by rapid technological and policy development in the twelve months since the first event was held.

We would also like to take the opportunity to introduce you to a number of companies who will be exhibiting at the conference.

With thanks,
David
