Is-Adran y Gymraeg

We just spoke. Apologies for not responding yesterday.

As we discussed, it would be helpful for you to have a written proposal from Cardiff Council outlining what they are seeking to achieve from applying for additional grant funding to support the Welsh Language Centre. You can then use this as the basis to develop the award letter.

As we discussed, Cardiff Council would be responsible for the correct procurement of an individual to undertake the work but that is their concern.

The work is not being carried out on our behalf and the resulting business plan will not be our property so it is appropriate to grant fund Cardiff Council.

I hope this helps.

([Canolfan Ragoriaeth Grantiau], can you save in queries for me please?).

Kind regards
Canolfan Ragoriaeth Grantiau, Llywodraeth Cymru

Subject: Advice

Good afternoon,

I wonder if you could advise me please?

In 2015-16 we funded the development of a Welsh Language Centre in Cardiff which was a capital grant fund paid to Cardiff City Council. The Minister has had discussions with the Leader of CCC and wishes to support the Welsh Language Centre to develop their business plan.

Funding has been allocated by the Welsh Language Division. Is there any reason why we could not provide the Council with a revenue grant (£20,000) to employ a business consultant?

Thank you
