Hi [hepgorwyd adran 40(2)]

I'm happy with the inclusion of the handling point. I've also amended the section on the long coming into force date, scrutiny by other Committees and the potential for delaying the plenary debate if needed, as it wasn't quite accurate and had been added since we last saw it.

Regards

I think it makes sense but just wanted to run past you that you didn't have an issue in [hepgorwyd adran 40(2)] including the last bullet point in Section 2

Hi [hepgorwyd adran 40(2)]

We're nearly there now with this MA/L. LS have cleared it, so have EPS Ops and Health finance. I just wanted to draw to your attention a late change – we've added paras 5.18-5.20 about meeting opposition spokespeople and the last bullet point in section 2 which asks the Minister to note that advice. We feel that we needed to strengthen the advice that the Minister should meet with opposition spokespeople sooner rather than later in the process.

I don't think that this calls for us to seek LS, EPS Ops/Health finance clearances again as it is a policy issue – do you agree?

Thanks
