Hannah Blythyn AM

Minister for Environment,

Dear Minister,

Please find attached a letter for consideration as soon as possible, in view of the extended delay down a legal dead-end.

We seek that you discard the inapplicable EIA-screening intervention and confirm with the Vale Council that the development 2017/01080/FUL is EIA Schedule 1.

That will end the hold-up of the current application and allow us to update the Euro-Commissioner, while remedy for the EIA failures in planning and PPC consents is left for decision under your appropriate powers.

Yours sincerely,

Max Wallis 0778 333 0956

Planning manager,

Friends of the Earth Barry&Vale
