Hi Kirsty,

This is already on for LG, shall I just add this to the record?

Thanks

Hannah Blythyn AM

Minister for Environment,

Dear Minister,

Please find attached a letter for consideration as soon as possible, in view of the extended delay down a legal dead-end.

We seek that you discard the inapplicable EIA-screening intervention and confirm with the Vale Council that the development 2017/01080/FUL is EIA Schedule 1.

That will end the hold-up of the current application and allow us to update the Euro-Commissioner, while remedy for the EIA failures in planning and PPC consents is left for decision under your appropriate powers.

Yours sincerely,

*Max Wallis 0778 333 0956*

Planning manager,

Friends of the Earth Barry&Vale
