Bore da [REDACTED], [REDACTED]

Although it is a new application, policy hasn't changed and many of the submissions are the same as the first submission.

To save duplicating effort, as with the approach to the Cefn Forest redetermination, we propose to rely on sections of the first report, updating and revising as necessary.

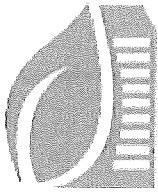

If you have any concerns with this approach please let me know.

Just so you know, we have received objections to the decision not to hold hearings. Subject to satisfactory answers to some queries regarding biodiversity, the Inspectors are satisfied the written submissions are sufficient to enable them to consider the application and make a recommendation.

Happy to discuss (I'll be in the office around 11.30, heading back Thursday).
