Camping on Welsh Farms - 56 days again please

Date:

12 January 2022 21:11:18

Minister – in common with many Welsh farms last year, we took advantage of the extended period for allowing visitors, mainly from England, to camp on our small hill farm in BBNP without requiring planning permission. It was very successful both for us and the visitors, the latter proved by the many compliments, and that all the reviews posted gave us 10/10.

Can you please repeat the extension from 28 to 56 days this year? Better still, make it permanent? It is both a great help for small farm diversification, and to attract more visitors to enjoy our beautiful countryside – and to spend money!

We do need to know what you decide quickly, people are asking about Spring breaks already.

Regards, and Happy New Year
