Britannia Stores

I've now looked at photos and letter.

I'm afraid the building is not of listable quality. Listing is chiefly concerned with surviving character, and the character of this building has been depleted by the very large shop window which takes up the entire ground floor of the front of the building. The building is very prominently sited near the Cob and railway station in the town, and will have been assessed also at the recent Resurvey of the community.
