Subject: RE: CDOM Suggested Interview Questions

Thanks <redacted s40(2)> and happy with these

Can we also add :

- “How would you provide assurance to the Health Board about the safety and direction of the Maternity Service”
- “What would you do if you disagreed with an external instruction being given to the Health Board which will impact on the Maternity Service”
- “What will be your approach to further developing a multidisciplinary approach to care and support within the Maternity Service”

I may change the wording – but can these be included ..

Thanks
