Subject: Position on NPT Birth Centre and Home Birth Service

Hi <redacted s40(2)>,

Here's our position on the above - something very similar will appear in the Chief Executive's report to the board which we expect to publish sometime tomorrow afternoon or Thursday morning.

Update

Last week our Management Board approved the reopening of the NPT Birth Centre and the Home Birth service subject to final approval by the Board. This followed a comprehensive review process involving a number of formal 'gateways' and significant staff input and engagement. As a result of issues raised this week by one of our recognised Unions, there will be a short delay in bringing the formal proposal for the reopening to the Board. This updated timetable will ensure that the Board is fully briefed on any issues and has sufficient assurance regarding the management response before any final decisions are made.

Thanks,

<redacted s40(2)>
