

Regional economic & labour market profiles – January 2019

29 Jan 2019
SB 2/2019

About this bulletin

This quarterly statistical bulletin summarises information on the economy and labour market for the Welsh economic regions along with comparisons to Wales and the UK.

It covers the four economic regions of Wales: North Wales, Mid Wales, South West Wales and South East Wales.

In this bulletin

Comparisons	2
North Wales	3
Mid Wales	8
South West Wales	13
South East Wales	18
Business Structure & Foreign Owned Companies	23
Links to Data	25
Key quality information	26

Historically, the regional economic and labour market profiles were published as four separate statistical bulletins. From this publication, these have been merged to provide all the regional data in one bulletin to enable comparisons to be made more easily.

Links to all data available for the economic regions (including additional data that aren't included in this bulletin) are provided on page 25.

Comparisons to Wales, UK & other Welsh economic regions

	North Wales	Mid Wales	South West Wales	South East Wales	Wales	UK
Employment rate ⁽¹⁾	75.3%	74.8%	69.4%	72.5%	72.6%	75.0%
Unemployment rate ⁽²⁾	4.0%	2.0%	4.9%	5.2%	4.6%	4.2%
Economic Inactivity rate ⁽³⁾	18.1%	17.0%	22.9%	19.9%	20.0%	17.7%
GVA per head ⁽⁴⁾	£20,753	£17,637	£17,610	£20,863	£19,899	£27,298
GDHI per head ⁽⁵⁾	£16,502	£16,303	£15,467	£15,696	£15,835	£19,432
Average earnings ⁽⁶⁾	£498.80	£478.40	£508.70	£520.00	£509.00	£569.00
Change on year ⁽⁷⁾:						
Employment rate ⁽¹⁾	1.1	1.1	-0.8	1.0	0.6	0.6
Unemployment rate ⁽²⁾	0.5	-1.2	-0.2	-0.4	-0.2	-0.3
Economic Inactivity rate ⁽³⁾	-1.3	-0.4	1.6	-0.4	-0.2	-0.3
GVA per head ⁽⁴⁾	4.4	-1.2	1.9	2.8	2.7	2.9

GVA per head ⁽⁴⁾	80.2	66.0	73.7	72.5	74.1	76.1
GDHI per head ⁽⁵⁾	60.8	65.2	56.5	58.8	58.8	67.4
Average earnings ⁽⁶⁾

(1) Rates are for those aged 16-64. Data relate to the year to September 2018 with comparisons over the latest year and 2001.

(2) Rates are for those aged 16 and over using the International Labour Organisation's (ILO) definition of unemployment and are proportions of the economically active. Data relate to the year to September 2018 with comparisons over the latest year and 2001.

(3) Rates exclude students and are for those aged 16-64. Data relate to the year to September 2018 with comparisons over the latest year and 2001.

(4) Data relate to 2017 and are provisional. Comparisons are over the latest year and 1999.

(5) Data relate to 2016 and are provisional. Comparisons are over the latest year and 1999.

(6) Average (median) gross weekly earnings. Data relate to 2018 and are provisional. Comparisons are over the latest year. Comparisons to 1999 are not available.

(7) Percentage point change for employment, ILO unemployment and economic inactivity rates. Percentage change for GVA per head, GDHI per head and average earnings.

The [key quality information](#) section includes a link to a data sources guide which gives information on the methodology, quality and metadata for the sources used in this output.

Please note the 'next update' dates given throughout this bulletin relate to when new data for the dataset are next being released. The StatsWales datasets will be updated at that time and can be accessed via the links given at the end of this bulletin.

Section 1: North Wales

The North Wales economic region consists of the following six local authorities: Isle of Anglesey, Gwynedd, Conwy, Denbighshire, Flintshire and Wrexham.

Labour Market Statistics

Table 1.1: Summary table for Labour market statistics

	North Wales				Wales		UK	
	Level (000s)	Change on year	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾
Employed ⁽¹⁾	325.6	4.5 ↑	75.3%	1.1 ↑	72.6%	0.6 ↑	75.0%	0.6 ↑
Unemployed ⁽²⁾	13.4	2.0 ↑	4.0%	0.5 ↑	4.6%	-0.2 ↓	4.2%	-0.3 ↓
Economically Inactive ⁽³⁾	68.0	-5.1 ↓	18.1%	-1.3 ↓	20.0%	-0.2 ↓	17.7%	-0.3 ↓

(1) Levels are for those aged 16 and over, rates are for those aged 16-64. Data relate to the year to September 2018.

(2) Levels and rates are for those aged 16 and over using the International Labour Organisation's (ILO) definition of unemployment, rates are a proportion of the economically active. Data relate to the year to September 2018.

(3) Levels and rates exclude students and are for those aged 16-64. Data relate to the year to September 2018.

(4) Percentage point change for employed, ILO unemployed and economically inactive.

. Not applicable

Employment – New data (next update Mar 2019)

The employment level is the total number of people that are in employment and the employment rate is the percentage of the population that is in employment.

Table 1.1 shows the latest employment estimates and how these have changed over time. For the year ending September 2018, the number of people in employment in North Wales was 325,600, an increase of 4,500 people (1.4 per cent) compared with the previous twelve months.

Chart 1.1 shows the latest employment rates for the economic regions and each authority in North Wales. For the year ending September 2018, the employment rate in North Wales was 75.3 per cent. This was higher than the employment rate for both Wales and the UK as a whole.

Chart 1.1: Employment rates, year to September 2018 (a)

(a) Employment rates for those aged 16-64.

Unemployment – New data (next update Mar 2019)

The unemployment level is the total number of people who are unemployed and the unemployment rate is the percentage of the economically active population who are unemployed (using the International Labour Organisation's (ILO) definition of unemployment).

Table 1.1 shows the latest unemployment estimates and how these have changed over time. For the year ending September 2018, the number of people who were unemployed in North Wales was 13,400. This is an increase of 2,000 people (17.8 per cent) compared with the previous twelve months.

Chart 1.2 shows the latest unemployment rates for the economic regions and North Wales local authorities. For the year ending September 2018, the unemployment rate in North Wales was 4.0 per cent. This was lower than the unemployment rate in both Wales and the UK as a whole.

Chart 1.2: Unemployment rates, year to September 2018 (a)

(a) Unemployment rates for those aged 16 and over (ILO definition of unemployment).

Economic inactivity – New data (next update Mar 2019)

The economic inactivity rate is the percentage of the population who are neither in employment or unemployed. Economically inactive people include people looking after the family and / or home, retirees and people with a sickness or disability.

Chart 1.3 shows the latest economic inactivity rates (excluding students) for the economic regions and each authority within North Wales.

Including students, the economic inactivity rate in North Wales was 21.5 per cent, down 1.6 percentage points over the year. This was lower than the rates for both Wales (23.8 per cent) and the UK (21.7 per cent).

Chart 1.3: Inactivity rate (excl. students), year to September 2018 (a)

(a) Economic inactivity rates (excluding students) for those aged 16-64.

Economy, earnings and businesses

Table 1.2: Summary table for economic and earnings statistics

(2) Data relate to 2016 and are provisional.

(3) Average (median) gross weekly earnings. Data relate to 2018 and are provisional.

. Not applicable

Gross value added (GVA) – New data (next update Dec 2019)

GVA is the value generated by any unit engaged in the production of goods and services.

Chart 1.4: GVA per head, 2017

Total GVA in North Wales in 2017 was £14.5 billion, up 4.4 per cent over the year and up 90.7 per cent since 1999. In comparison, Wales saw an increase of 3.1 per cent over the year and an increase of 87.6 per cent since 1999.

GVA per head in North Wales was £20,800, up 4.4 per cent over the year and up 80.2 per cent since 1999. In comparison, Wales saw an increase of 2.7 per cent over the year and increase of 74.1 per cent since 1999.

Gross disposable household income (GDHI) (next update May 2019)

Chart 1.5: Annual GDHI per head by NUTS3 level, 2016

GDHI is an estimate of the amount of money that households have available for spending or saving. In North Wales, GDHI per head has increased by 0.8 per cent over the year, while Wales and the UK have both increased by 0.7 per cent.

Please note, these data are not available at the geographical level required to replicate the Wales economic regions, therefore the figures for some of the regions are regarded as approximations. In the chart above, Mid Wales includes Powys but excludes Ceredigion, South West Wales includes Ceredigion and Bridgend and South East Wales excludes Bridgend.

Average (median) full-time weekly earnings – New data (next update Oct 2019)

Chart 1.6: Average full-time weekly earnings, 2018 (a)

(a) Average (median) gross weekly earnings (including overtime) for full time adults whose pay was unaffected by absence.

Average weekly earnings in North Wales were up 3.8 per cent over the year compared with an increase of 2.1 per cent for Wales and an increase of 3.5 per cent for the UK.

Within North Wales, 5 of the 6 authorities had an increase over the year, with Gwynedd having the largest increase of 12.2 per cent.

VAT/PAYE registered enterprises – New data (next update Nov 2019)

These data exclude those businesses below the VAT threshold and not registered for PAYE.

Table 1.3: Total stock of VAT/PAYE registered enterprises, 2017 (a)

(levels rounded to nearest 5)

	2017	Compared to previous year			Compared to earliest available		
		2016	Level Change	Percentage Change	2002	Level Change	Percentage Change
North Wales	23,760	23,430	330	1.4 ↑	20,010	3,750	18.7 ↑
Wales	102,890	98,445	4,445	4.5 ↑	81,175	21,715	26.8 ↑
United Kingdom	2,925,600	2,833,510	92,090	3.3 ↑	2,115,915	809,685	38.3 ↑

Source: Business Demography, ONS

(a) Stock of VAT/PAYE registered enterprises in each year. Level and percentage changes are calculated using the published rounded figures.

In North Wales, there were 2,460 VAT/PAYE registered enterprise births during 2017. This was a decrease from 2,515 enterprise births in 2016.

There were 2,280 VAT/PAYE registered enterprise deaths in North Wales in 2017, which was an increase from 2,075 enterprise births in 2016.

The difference in births and deaths may not equal the difference in stock, because businesses may be born and die in the same period and the stock is taken at a single point in time.

Chart 1.7: VAT/PAYE enterprises per 10,000 residents

Section 2 - Mid Wales

Mid Wales consists of the following two local authorities: Powys and Ceredigion.

Labour Market Statistics

Table 2.1: Summary table for Labour market statistics

	Mid Wales				Wales		UK	
	Level (000s)	Change on year	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾
Employed ⁽¹⁾	97.2	0.3 ↑	74.8%	1.1 ↑	72.6%	0.6 ↑	75.0%	0.6 ↑

(1) Levels are for those aged 16 and over, rates are for those aged 16-64. Data relate to the year to September 2018.

(2) Levels and rates are for those aged 16 and over using the International Labour Organisation's (ILO) definition of unemployment, rates are a proportion of the economically active. Data relate to the year to September 2018.

(3) Levels and rates exclude students and are for those aged 16-64. Data relate to the year to September 2018.

(4) Percentage point change for employed, ILO unemployed and economically inactive.

. Not applicable

Employment – New data (next update Mar 2019)

The employment level is the total number of people that are in employment and the employment rate is the percentage of the population that is in employment.

Table 2.1 shows the latest employment estimates and how these have changed over time. For the year ending September 2018, the number of people in employment in Mid Wales was 97,200, a slight increase (0.3 per cent) compared with the previous twelve months.

Chart 2.1 shows the latest employment rates for the economic regions and each authority within Mid Wales. For the year ending September 2018, the employment rate in Mid Wales was 74.8 per cent. This was higher than the employment rate for Wales, but lower than the UK.

Chart 2.1: Employment rates, year to September 2018 (a)

(a) Employment rates for those aged 16-64.

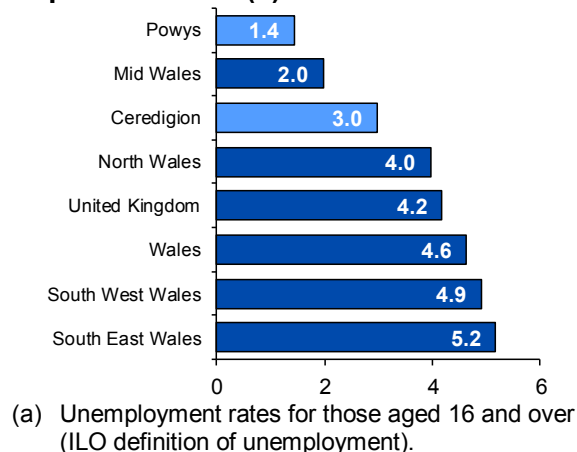

Unemployment – New data (next update Mar 2019)

The unemployment level is the total number of people who are unemployed and the unemployment rate is the percentage of the economically active population who are unemployed (using the International Labour Organisation's (ILO) definition of unemployment).

Table 2.1 shows the latest unemployment estimates and how these have changed over time. For the year ending September 2018, the number of people who were unemployed in Mid Wales was 2,000. This is a decrease of 1,300 people (39 per cent) compared with the previous twelve months.

Chart 2.2 shows the latest unemployment rates for the economic regions and Mid Wales local authorities. For the year ending September 2018, the unemployment rate in Mid Wales was 2.0 per cent. This was lower than the unemployment rate in both Wales and the UK as a whole.

Chart 2.2: Unemployment rates, year to September 2018 (a)

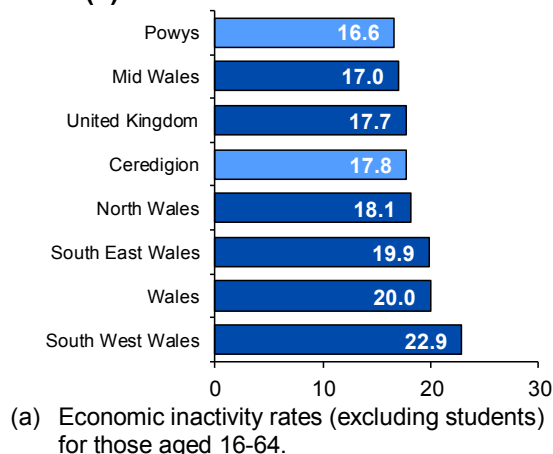

Economic inactivity – New data (next update Mar 2019)

The economic inactivity rate is the percentage of the population who are neither in employment or unemployed. Economically inactive people include people looking after the family and / or home, retirees and people with a sickness or disability.

Chart 2.3 shows the latest economic inactivity rates (excluding students) for the economic regions and each authority within Mid Wales.

Including students, the economic inactivity rate in Mid Wales was 23.6 per cent, down 0.1 percentage points over the year. This was lower than the rate for Wales (23.8 per cent), but higher than the rate for the UK (21.7 per cent).

Chart 2.3: Economic inactivity rates (excl. students), year to September 2018 (a)

Economy, earnings and businesses

Table 2.2: Summary table for economic and earnings statistics

(1) Data relate to 2017 and are provisional.

(2) Data relate to 2016 and are provisional.

(3) Average (median) gross weekly earnings. Data relate to 2018 and are provisional.

. Not applicable

Gross value added (GVA) – New data (next update Dec 2019)

GVA is the value generated by any unit engaged in the production of goods and services.

Chart 2.4: GVA per head, 2017

Total GVA in Mid Wales in 2017 was £3.6 billion, down 1.5 per cent over the year, but up 71.0 per cent since 1999. In comparison, Wales saw an increase of 3.1 per cent over the year and an increase of 87.6 per cent since 1999.

GVA per head in Mid Wales was £17,600, down 1.2 per cent over the year, but up 66.0 per cent since 1999. In comparison, Wales saw an increase of 2.7 per cent over the year and an increase of 74.1 per cent since 1999.

Gross disposable household income (GDHI) (next update May 2019)

Chart 2.5: Annual GDHI per head by NUTS3 level, 2016

GDHI is an estimate of the amount of money that households have available for spending or saving. In Powys, GDHI per head decreased by 0.9 per cent over the year, while Wales and the UK both increased by 0.7 per cent.

Please note these data are not available at the geographical level required to replicate the Wales economic regions, therefore the figures for some of the regions are regarded as approximations. In the chart above, Mid Wales includes Powys but excludes Ceredigion, South West Wales includes Ceredigion and Bridgend and South East Wales excludes Bridgend.

Average (median) full-time weekly earnings – New data (next update Oct 2019)

Chart 2.6: Average full-time weekly earnings, 2018 (a)

(b) Average (median) gross weekly earnings (including overtime) for full time adults whose pay was unaffected by absence.

Average weekly earnings in Mid Wales were up 2.3 per cent over the year compared with an increase of 2.1 per cent for Wales and an increase of 3.5 per cent for the UK.

Within Mid Wales, both authorities had increases over the year, with Ceredigion having the largest increase of 3.9 per cent.

VAT/PAYE registered enterprises – New data (next update Nov 2019)

These data exclude those businesses below the VAT threshold and not registered for PAYE.

Table 2.3: Total stock of VAT/PAYE registered enterprises, 2017 (a)

(levels rounded to nearest 5)

	2017	Compared to previous year			Compared to earliest available		
		2016	Level Change	Percentage Change	2002	Level Change	Percentage Change
Mid Wales	8,695	8,680	15	0.2 ↑	7,985	710	8.9 ↑
Wales	102,890	98,445	4,445	4.5 ↑	81,175	21,715	26.8 ↑
United Kingdom	2,925,600	2,833,510	92,090	3.3 ↑	2,115,915	809,685	38.3 ↑

Source: Business Demography, ONS

(a) Stock of VAT/PAYE registered enterprises in each year. Level and percentage changes are calculated using the published rounded figures.

In Mid Wales, there were 640 VAT/PAYE registered enterprise births during 2017. This was a decrease on the 695 births in 2016.

There were 705 VAT/PAYE registered enterprise deaths in Mid Wales in 2017, an increase from the 635 enterprise deaths in 2016.

The difference in births and deaths may not equal the difference in stock, because businesses may be born and die in the same period and the stock is taken at a single point in time.

Chart 2.7: VAT/PAYE enterprises per 10,000 residents

Section 3 - South West Wales

South West Wales is made up of the following four local authorities: Pembrokeshire, Carmarthenshire, Swansea and Neath Port Talbot.

Labour Market Statistics

Table 3.1: Summary table for Labour market statistics

	South West Wales				Wales		UK	
	Level (000s)	Change on year	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾

. Not applicable

Employment – New data (next update Mar 2019)

The employment level is the total number of people that are in employment and the employment rate is the percentage of the population that is in employment.

Table 3.1 shows the latest employment estimates and how these have changed over time. For the year ending September 2018, the number of people in employment in South West Wales was 303,700. This is a decrease of 3,000 people (1.0 per cent) compared with the previous twelve months.

Chart 3.1 shows the latest employment rates for the economic regions and each authority within South West Wales. For the year ending September 2018, the employment rate in South West Wales was 69.4 per cent. This was lower than the employment rate for both Wales and the UK.

Chart 3.1: Employment rates, year to September 2018 (a)

(a) Employment rates for those aged 16-64.

Unemployment – New data (next update Mar 2019)

The unemployment level is the total number of people who are unemployed and the unemployment rate is the percentage of the economically active population who are unemployed (using the International Labour Organisation's (ILO) definition of unemployment).

Table 3.1 shows the latest unemployment estimates and how these have changed over time. For the year ending September 2018, the number of people who were unemployed in South West Wales was 15,600. This is a decrease of 700 people (4.4 per cent) compared with the previous twelve months.

Chart 3.2 shows the latest unemployment rates for the economic regions and South West Wales local authorities. For the year ending September 2018, the unemployment rate in South West Wales was 4.9 per cent. This was higher than the unemployment rate in both Wales and the UK as a whole.

Chart 3.2: Unemployment rates, year to September 2018 (a)

(a) Unemployment rates for those aged 16 and over (ILO definition of unemployment).

Economic inactivity – New data (next update Mar 2019)

The economic inactivity rate is the percentage of the population who are neither in employment or unemployed. Economically inactive people include people looking after the family and / or home, retirees and people with a sickness or disability.

Chart 3.3 shows the latest economic inactivity rates (excluding students) for the economic regions and each authority within South West Wales.

Including students, the economic inactivity rate in South West Wales was 27.0 per cent, up 1.0 percentage points over the year. This was higher than the economic inactivity rate for Wales (23.8 per cent) and the UK (21.7 per cent).

Chart 3.3: Economic inactivity rates (excl. students), year to September 2018 (a)

(a) Economic inactivity rates (excluding students) for those aged 16-64.

Economy, earnings and businesses

. Not applicable

Gross value added (GVA) – New data (next update Dec 2019)

GVA is the value generated by any unit engaged in the production of goods and services.

Chart 3.4: GVA per head, 2017

Total GVA in South West Wales in 2017 was £12.3 billion, up 2.4 per cent over the year and up 88.3 per cent since 1999. In comparison, Wales saw an increase of 3.1 per cent over the year and an increase of 87.6 per cent since 1999.

GVA per head in South West Wales was £17,600, up 1.9 per cent over the year and up 73.7 per cent since 1999. In comparison, Wales saw an increase of 2.7 per cent over the year and an increase of 74.1 per cent since 1999.

Gross disposable household income (GDHI) (next update May 2019)

Chart 3.5: Annual GDHI per head by NUTS3 level, 2016

GDHI is an estimate of the amount of money that households have available for spending or saving. In South West Wales, GDHI per head increased by 0.4 per cent over the year, while in both Wales and the UK it increased by 0.7 per cent.

Please note these data are not available at the geographical level required to replicate the Wales economic regions, therefore the figures for some of the regions are regarded as approximations. In the chart above, Mid Wales includes Powys but excludes Ceredigion, South West Wales includes Ceredigion and Bridgend and South East Wales excludes Bridgend.

Average (median) full-time weekly earnings – New data (next update Oct 2019)

Chart 3.6: Average full-time weekly earnings, 2018 (a)

(a) Average (median) gross weekly earnings (including overtime) for full time adults whose pay was unaffected by absence.

Average weekly earnings in South West Wales were up 1.8 per cent over the year compared with an increase of 2.1 per cent for Wales and an increase of 3.5 per cent for the UK.

Within South West Wales, 3 of the 4 authorities had increases over the year, with Swansea having the largest increase of 6.9 per cent.

VAT/PAYE registered enterprises – New data (next update Nov 2019)

These data exclude those businesses below the VAT threshold and not registered for PAYE.

Table 4: Total stock of VAT/PAYE registered enterprises, 2017 (a)

(levels rounded to nearest 5)

	2017	Compared to previous year			Compared to earliest available		
		2016	Level Change	Percentage Change	2002	Level Change	Percentage Change
South West Wales	21,075	20,855	220	1.1 ↑	17,690	3,385	19.1 ↑
Wales	102,890	98,445	4,445	4.5 ↑	81,175	21,715	26.8 ↑
United Kingdom	2,925,600	2,833,510	92,090	3.3 ↑	2,115,915	809,685	38.3 ↑

Source: Business Demography, ONS

(a) Stock of VAT/PAYE registered enterprises in each year. Level and percentage changes are calculated using the published rounded figures.

In South West Wales, there were 2,255 VAT/PAYE registered enterprise births during 2017. This was a decrease from 2,380 enterprise births in 2016.

There were 2,255 VAT/PAYE registered enterprise deaths in South West Wales in 2017, which was an increase from 2,100 enterprise births in 2016.

The difference in births and deaths may not equal the difference in stock, because businesses may be born and die in the same period and the stock is taken at a single point in time.

Chart 3.7: VAT/PAYE enterprises per 10,000 residents

Section 4 - South East Wales

South East Wales is made up of the following 10 local authorities: Bridgend, Rhondda Cynon Taf, Merthyr Tydfil, Caerphilly, Blaenau Gwent, Torfaen, Vale of Glamorgan, Monmouthshire, Newport and Cardiff.

Labour Market Statistics

Table 4.1: Summary table for Labour market statistics

	South East Wales				Wales		UK	
	Level (000s)	Change on year	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾	Rate	Change on year ⁽⁴⁾
Employed ⁽¹⁾	707.6	9.0 ↑	72.5%	1.0 ↑	72.6%	0.6 ↑	75.0%	0.6 ↑
Unemployed ⁽²⁾	38.6	-2.8 ↓	5.2%	-0.4 ↓	4.6%	-0.2 ↓	4.2%	-0.3 ↓
Economically Inactive ⁽³⁾	171.0	-2.4 ↓	19.9%	-0.4 ↓	20.0%	-0.2 ↓	17.7%	-0.3 ↓

(1) Levels are for those aged 16 and over, rates are for those aged 16-64. Data relate to the year to September 2018.

(2) Levels and rates are for those aged 16 and over using the International Labour Organisation's (ILO) definition of unemployment, rates are a proportion of the economically active. Data relate to the year to September 2018.

(3) Levels and rates exclude students and are for those aged 16-64. Data relate to the year to September 2018.

(4) Percentage point change for employed, ILO unemployed and economically inactive.

. Not applicable

Employment – New data (next update Mar 2019)

The employment level is the total number of people that are in employment and the employment rate is the percentage of the population that is in employment.

Table 4.1 shows the latest employment estimates and how these have changed over time. For the year ending September 2018, the number of people in employment in South East Wales was 707,600. This was an increase of 9,000 people (1.3 per cent) compared with the previous twelve months.

Chart 4.1 shows the latest employment rates for the economic regions and each authority within South East Wales. For the year ending September 2018, the employment rate in South East Wales was 72.5 per cent. This was lower than the employment rate for both Wales and the UK as a whole.

Chart 4.1: Employment rates, year to September 2018 (a)

(a) Employment rates for those aged 16-64.

Unemployment – New data (next update Mar 2019)

The unemployment level is the total number of people who are unemployed and the unemployment rate is the percentage of the economically active population who are unemployed (using the International Labour Organisation's (ILO) definition of unemployment).

Table 4.1 shows the latest unemployment estimates and how these have changed over time. For the year ending September 2018, the number of people who were unemployed in South East Wales was 38,600. This was a decrease of 2,800 people (6.9 per cent) compared with the previous twelve months.

Chart 4.2 shows the latest unemployment rates for the economic regions and South East Wales local authorities. For the year ending September 2018, the unemployment rate in South East Wales was 5.2 per cent. This was higher than the unemployment rate in both Wales and the UK.

Chart 4.2: Unemployment rates, year to September 2018 (a)

(a) Unemployment rates for those aged 16 and over (ILO definition of unemployment).

Economic inactivity – New data (next update Mar 2019)

The economic inactivity rate is the percentage of the population who are neither in employment or unemployed. Economically inactive people include people looking after the family and / or home, retirees and people with a sickness or disability.

Chart 4.3 shows the latest economic inactivity rates (excluding students) for the economic regions and each authority within South East Wales.

Including students, the economic inactivity rate in South East Wales was 23.5 per cent, down 0.7 percentage points over the year. This was lower than the rate for Wales (23.8 per cent), but higher than the rate for the UK (21.7 per cent).

Chart 4.3: Economic inactivity rates (excl. students), year to September 2018 (a)

(a) Economic inactivity rates (excluding students) for those aged 16-64.

Economy, earnings and businesses

Table 4.2: Summary table for economic and earnings statistics

	South East Wales			Wales			UK		
	Level (£ bn)	Rate	Change on year (%)	Level (£ bn)	Rate	Change on year (%)	Level (£ bn)	Rate	Change on year (%)

Gross value added (GVA) – New data (next update Dec 2019)

GVA is the value generated by any unit engaged in the production of goods and services.

Chart 4.4: GVA per head, 2017

Total GVA in South East Wales in 2017 was £31.8 billion, up 3.4 per cent over the year and up 88.0 per cent since 1999. In comparison, Wales saw an increase of 3.1 per cent over the year and an increase of 87.6 per cent since 1999.

GVA per head in South West Wales was £20,900, up 2.8 per cent over the year and up 72.5 per cent since 1999. Wales saw an increase of 2.7 per cent over the year and an increase of 74.1 per cent since 1999.

Gross disposable household income (GDHI) (next update May 2019)

Chart 4.5: Annual GDHI per head by NUTS3 level, 2016

GDHI is an estimate of the amount of money that households have available for spending or saving. In South East Wales, GDHI per head has increased by 1.1 per cent over the year, while Wales and the UK have both increased by 0.7 per cent.

Please note, these data are not available at the geographical level required to replicate the Wales economic regions, therefore the figures for some of the regions are regarded as approximations. In the chart above, Mid Wales includes Powys but excludes Ceredigion, South West Wales includes Ceredigion and Bridgend and South East Wales excludes Bridgend.

Average (median) full-time weekly earnings – New data (next update Oct 2019)

Chart 4.6: Average full-time weekly earnings, 2018 (a)

(a) Average (median) gross weekly earnings (including overtime) for full time adults whose pay was unaffected by absence.

Average weekly earnings in South East Wales were up 2.5 per cent over the year compared with an increase of 2.1 per cent for Wales and an increase of 3.5 per cent for the UK.

Within South East Wales, 5 of the 10 authorities had increases over the year, with Merthyr Tydfil having the largest increase of 12.0 per cent.

VAT/PAYE registered enterprises – New data (next update Nov 2019)

These data exclude those businesses below the VAT threshold and not registered for PAYE.

Table 4: Total stock of VAT/PAYE registered enterprises, 2017 (a)

(levels rounded to nearest 5)

	2017	Compared to previous year			Compared to earliest available		
		2016	Level Change	Percentage Change	2002	Level Change	Percentage Change
South East Wales	49,360	45,480	3,880	8.5 ↑	35,490	13,870	39.1 ↑
Wales	102,890	98,445	4,445	4.5 ↑	81,175	21,715	26.8 ↑
United Kingdom	2,925,600	2,833,510	92,090	3.3 ↑	2,115,915	809,685	38.3 ↑

Source: Business Demography, ONS

(a) Stock of VAT/PAYE registered enterprises in each year. Level and percentage changes are calculated using the published rounded figures.

In South East Wales, there were 8,765 VAT/PAYE registered enterprise births during 2017. This was an increase from 6,525 enterprise births in 2016.

There were 5,485 VAT/PAYE registered enterprise deaths in South East Wales in 2017, which was an increase from 4,765 enterprise deaths in 2016.

The difference in births and deaths may not equal the difference in stock, because businesses may be born and die in the same period and the stock is taken at a single point in time.

Chart 4.7: VAT/PAYE enterprises per 10,000 residents

Section 5 - Business Structure and Foreign Owned Companies

Business structure – New data
(next update Nov 2019)

Table 5.1: Enterprises by employee size band, 2018

(levels rounded to nearest 5)

	Zero (0)	Micro (1-9)	Small (10-49)	Medium (50-249)	Large (250+)	Total
North Wales	47,765	11,660	2,410	540	680	63,055
Mid Wales	21,730	4,930	830	165	280	27,935
South West Wales	43,935	10,570	2,170	505	625	57,810
South East Wales	85,225	20,240	4,155	1,235	1,310	112,170
Wales	198,655	47,355	9,365	2,155	1,675	259,200

Source: Size Analysis of Welsh Businesses

The Business structure data estimates the number of enterprises active in Wales by size band (defined in terms of the number of UK employees), and the aggregate employment in those enterprises. It also includes estimates for the very smallest businesses that operate below the VAT threshold.

In 2018, there were 246,005 enterprises in the micro size band (0-9 employees) accounting for 94.9 per cent of the total number of active enterprises in Wales. Despite this, micro businesses only accounted for 34.4 per cent of total employment in Wales in 2018.

Chart 5.1: Percentage of employment by enterprise size band, 2018

Table 5.2: Foreign owned companies, 2018 (a)

(levels rounded to nearest 5)

	Enterprises			Employees		
	Total	Foreign Owned	Percentage	Total	Foreign Owned	Percentage
North Wales	63,055	395	0.6	270,120	39,775	14.7
Mid Wales	27,935	95	0.3	84,435	3,855	4.6
South West Wales	57,810	310	0.5	244,730	28,250	11.5
South East Wales	112,170	885	0.8	560,660	89,920	16.0
Wales	259,200	1,245	0.5	1,159,950	161,800	13.9

Source: Size Analysis of Welsh Businesses

(a) Enterprises which are active in more than one local authority will be counted in each one, so the enterprises totals for the regions/Wales will not add up to the sum of the local authorities. The size band is based upon the size of the UK enterprises and includes all enterprises that are active in Wales.

In 2018, 0.5 per cent of enterprises in Wales were foreign owned. Foreign owned businesses are larger on average than domestically owned businesses however, and they account for 13.9 per cent of all employees in Wales. South East Wales had the highest percentage of foreign owned enterprises and the highest percentage of employees in foreign owned enterprises of the four economic regions.

Key quality information

Relevance

This bulletin is a compendium publication used to bring together the latest key statistics relating to the economy and labour market for each of the four economic regions in Wales, in the context of the Welsh/UK economy and labour market.

This bulletin, produced by the Welsh Government, provides a summary of the sub-Wales data contained within a range of statistical bulletins and presents those estimates alongside other headline estimates for the economy and labour market for Wales and the UK. These statistics are used by the Welsh Government to monitor the headline statistics for the sub-Wales regions as well as providing comparisons to the UK and Welsh economy. The bulletin includes statistics relevant to the [Programme for Government](#) and [Prosperity for All: economic action plan](#). This bulletin was produced in response to growing user demand for more local area data which was identified in our user consultation. Our [user consultation](#) provides more information on how our outputs are used.

The bulletin is the main vehicle for the publication of results at economic region level for the Welsh labour market from the Annual Population Survey (APS), as produced by the Office for National Statistics (ONS).

The bulletin brings together the further datasets, for which the Welsh Government produces separate publications, including average weekly earnings, business demography, workplace employment, business structure and regional accounts data. Further information about these additional datasets can be found in the [separate publications themselves](#).

Claimant Count has been removed from the ONS labour market release because it may now be providing a misleading representation of the UK labour market. From June 2015 the Claimant Count statistics were designated as experimental due to the impact of Universal Credit, which is designed so a broader span of claimants is required to look for work than under Jobseeker's Allowance.

This means that once Universal Credit is fully rolled out, the Claimant Count is likely to be higher than it would otherwise be under Jobseeker's Allowance. The impact has increased as roll-out of Universal Credit has progressed and the seasonally-adjusted claimant count series has become more volatile. The Welsh Government will continue to publish Claimant Count data on StatsWales. The full [ONS statement](#) is available via their website.

This bulletin previously included statistics on working age benefits claimants by client group, based on Department for Work and Pensions (DWP) data. DWP no longer produces this series and the full statement is available via the [Nomis website](#).

DWP now publishes a Benefit Combinations dataset on their StatsXplore website which provides both Working Age and Pension Age statistics on the number of individuals claiming a DWP benefit in total and to show the key combinations of benefits claimed. We are in the process of assessing whether this new data source is appropriate for our uses and/or publication.

Accuracy

Guidance on the use of the bulletins

For further guidance on the use of this bulletin, including quality information and descriptions and comparisons of measures and sources, please refer to the [Regional Profile User Guide](#).

Data Sources and Quality

We have also published a [comprehensive data sources guide list](#) which provides a summary of all the main official data sources used by the Economic and Labour Market Statistics branch as well as useful links.

Definitions of regions

The four regions used in this set of bulletins are defined as:

North Wales: Isle of Anglesey, Gwynedd, Conwy, Denbighshire, Flintshire and Wrexham.

Mid Wales: Powys and Ceredigion.

South West Wales: Pembrokeshire, Carmarthenshire, Swansea and Neath Port Talbot.

South East Wales: Bridgend, Rhondda Cynon Taf, Merthyr Tydfil, Caerphilly, Blaenau Gwent, Torfaen, Vale of Glamorgan, Monmouthshire, Newport and Cardiff.

These definitions are based on the three regions set out in the Welsh Government's Economic Action Plan. We have presented data for the Mid and South West Wales region in two parts (Mid Wales, South West Wales) as there continues to be a demand for data on this basis. We welcome feedback on this presentation.

Revisions

Where the data is not from the Welsh Government, we follow the revisions policy of the individual Government department. For data from our own outputs, we follow our [revisions policy](#).

Timeliness and punctuality

This is a quarterly bulletin, usually published in January, April, July and October. It is based on the latest version of each of the datasets it includes (see dates given in each of the headings for the next update dates).

Accessibility and clarity

Much of the data in this bulletin can be found on [StatsWales](#) which is a free-to-use service that allows visitors to view, manipulate, create and download tables from the most detailed official data on Wales. Links to specific data can be found under the relevant tables, above.

Comparability and coherence

Comparable measures for other UK countries for the data published in this bulletin are published on [StatsWales](#) where available. Links to specific data can be found under the relevant tables, above.

National Statistics status

The [United Kingdom Statistics Authority](#) has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the [Code of Practice for Statistics](#).

National Statistics status means that official statistics meet the highest standards of trustworthiness, quality and public value.

All official statistics should comply with all aspects of the Code of Practice for Statistics. They are awarded National Statistics status following an assessment by the UK Statistics Authority's regulatory arm. The Authority considers whether the statistics meet the highest standards of Code compliance, including the value they add to public decisions and debate.

It is Welsh Government's responsibility to maintain compliance with the standards expected of National Statistics. If we become concerned about whether these statistics are still meeting the appropriate standards, we will discuss any concerns with the Authority promptly. National Statistics status can be removed at any point when the highest standards are not maintained, and reinstated when standards are restored.

Well-being of Future Generations Act (WFG)

The Well-being of Future Generations Act 2015 is about improving the social, economic, environmental and cultural well-being of Wales. The Act puts in place seven well-being goals for Wales. These are for a more equal, prosperous, resilient, healthier and globally responsible Wales, with cohesive communities and a vibrant culture and thriving Welsh language. Under section (10)(1) of the Act, the Welsh Ministers must (a) publish indicators ("national indicators") that must be applied for the purpose of measuring progress towards the achievement of the Well-being goals, and (b) lay a copy of the national indicators before the National Assembly. The 46 national indicators were laid in March 2016.

Information on the indicators, along with narratives for each of the well-being goals and associated technical information is available in the [Well-being of Wales report](#).

Further information on the [Well-being of Future Generations \(Wales\) Act 2015](#).

The statistics included in this release could also provide supporting narrative to the national indicators and be used by public services boards in relation to their local well-being assessments and local well-being plans.

Further details

The document is available at:
