- (a) These projections are based on the 2001 mid-year estimates of usually resident population. The figures are not forecasts of what the population will be but are an indication of what it would be based on certain assumptions regarding births, deaths and migration. Details of the assumptions were published in the National Statistics' publication 'National Population Projections: 1998-based' PP2 no.22. See www.gad.gov.uk for further details of interim 2001-based projections published in November 2002.
- (b) Working age and retirement age populations based on state retirement age for given year. Between 2010 and 2020, state retirement age will change from 65 years for men and 60 years for women, to 65 years for both sexes.

- (a) The table is constructed from the estimated population and total deaths in each year and is based on the three year average centred on the year stated. The "expected years of life" is the average future lifetime which would be lived by persons of a particular age, if they were subject throughout their lives to the average recorded death rate of the three year period. Such a calculation excludes improvements to the mortality rates over time. Until 1992, based on year the death was registered; year of occurrence from 1993. All the figures for life expectancy at birth were calculated using population estimates based on the 1981 and 1991 Censuses. The Government Actuary's Department will recalculate the figures from 1981 next year once the final revised population estimates based on the 2001 Census are available.

- (a) Lluniwyd y tabl o'r amcangyfrif o'r boblogaeth a chyfanswm y marwolaethau ymhob blwyddyn ac ar sail cyfartaledd o dair blynedd wedi eu canoli ar y flywddyn benodol. "Blynyddoedd oes disgwylidig" yw'r cyfartaledd oes yn y dyfodol y byddai pobl o oedran penodol yn byw, pe baent yn destun y gyfradd gyfartalog o farwolaethau cofnodedig yn y cyfnod o dair blynedd drwy gydol eu hoes. Nid yw'r cyfrifiad yn cynnwys gwelliannau i'r cyfraddau marwoldeb dros amser. Hyd at 1992 ar sail blwyddyn cofrestru marwolaeth; blwyddyn digwyddiad o 1993 ymlaen. Cyfrifwyd yr holl ffigurau ar gyfer disgwyliad oes adeg geni gan ddefnyddio amcangyfrifon o'r boblogaeth ysydd wedi'u seilio ar gyfrifiad 1981 a 1991. Y flwyddyn nesaf bydd Adran Actiwari'r Llywodraeth yn ailgyfrifo'r ffigurau o 1981 pan fydd amcangyfrifon diwygiedig o'r boblogaeth, sydd wedi'u seilio ar gyfrifiad 2001, ar gael.

(a) Data shown in the previous edition of this publication for the years up to and including the year 2000 were based on the ninth revision of the International Classification of Diseases (ICD 9) codes (ICD 460-519). For deaths from respiratory disease, this edition only shows data for 2001, based on the tenth revision of the International Classification of Diseases (ICD 10) codes (ICD J00-J99). A comparison cannot be made with the previous data. Further information on the changes to the ICD coding system together with comparability ratios can be obtained from the National Statistics Spring 2002 edition of Health Statistics Quarterly No 13.

(a) Roedd y data a ddangoswyd mewn rhifyn blaenorol o'r cyhoeddiad hwn hyd at a chan gynnwys y flwyddyn 2000 wedi eu seilio ar y nawfed adolygiad o'r Dosbarthiad Rhyngwladol o Glefydau (ICD9) codau (460-519). Am farwolaethau sy'n ymwneud ag afiechyd anadlu, dengys y rhifyn yma ddata am 2001 yn unig, sydd wedi'u seilio ar y degfed adolygiad o'r Dosbarthiad Rhyngwladol o Glefydau codau (J00-J99). Nid yw'n bosib i gymharu gyda'r data blaenorol.
